

PUMPS FOR **AIRPORTS**

Triolo

THE RIGHT
SOLUTION FOR
AIRPORTS

**VERTICAL MULTISTAGE
INLINE PUMP**

HOT OIL PUMP SERIES

NQX Series

Featuring the main structure of a structural support single-stage, and single-suction cantilever construction, as well as having the center output upright, the pump has a rigid structure and simple installation.

Adopting the double-pointed structure ball bearing structure technology, where the front side operates with lubricating oil, and the rear with a grease lubricant.

Small size and save power

Capacity up to	l/s	122
Head up to	m	95
Power up to	kW	132

END SUCTION PUMP

NX Series

NX series is an energy-saving pump designed by the Triolo team with advantages of perfect hydraulic distribution capabilities, high efficiency and easy maintenance.

Performance and dimensions refer to European standards BS EN733/DIN24255

Easy maintenance

Capacity up to	l/s	444
Head up to	m	150
Power up to	kW	160

SELF-PRIMING SEWAGE PUMP SERIES

QS Series

Excellent in solids handling and abrasion resistance. The QS Pumps can handle liquids up to a viscosity of approx 50mm²/s.

Easy maintenance

Has wide application in industry

Resistance to abrasion or corrosion

Capacity up to	l/s	29
Head up to	m	34
Power up to	kW	5,5

STAINLESS STEEL VERTICAL MULTISTAGE PUMP

CXT Series

Suitable for filtering and water transportation, water supply for plumbing, pressurized pipes, and high building pressures

Easy maintenance

This type of pump can be equipped with smart protectors to prevent them from working in out of phase, and overloaded conditions.

Capacity up to	l/s	67
Head up to	m	300
Power up to	kW	110

STAINLESS STEEL ELECTRIC SUBMERSIBLE PUMP SERIES

DLS Series

The DLS pump is a successful energy-saving product designed with a close coupling structure as well as high efficiency ratings.

Suitable for use in water supply applications with low to high flow like drinking water, industry, infrastructure, etc.

Capacity up to	l/s	350
Head up to	m	156
Power up to	kW	160

HORIZONTAL MULTISTAGE PUMP SERIES

G+ Series

Featuring an efficient motor and double channel/vortex options impellers.

The G+ pump can channel waste water continuously and silently.

Suitable for civil works applications, buildings, industries, hotels, hospitals, air defense, mines and others

G+ can drain waste water, rainwater and water containing solid grains and various types fabrics.

Capacity up to	l/s	700
Head up to	m	65
Power up to	kW	315

FUEL/OIL SUPPLY

Fuel/Oil Pumps

GCB Series | NXQ Series | QCS Series

The process of supplying gasoline/oil from the storage area to the filling station. Triolo pumps feature very reliable products in this field

FIRE STATION

FIRE STATION

Fire Fighting Pumps

NX Series | PX Series | DLS Series | MX Series

Triolo pumps have high pressure and flow capacities which are indispensable in the field of fire fighting

AIR TRAFFIC CONTROL

HANGER

AIRPORT

PUBLIC WATER USAGE

General Use Water Pumps

NX Series | **PX Series** | **CXT Series** | **DLS Series**

Pumps are used to supply water from sources at the airport site for airport needs

WASTE MANAGEMENT

Wastewater Pumps

G+ Series | **QS Series**

The process of cleaning waste to become safer water to be disposed of that does not damage the environment

STORAGE & COLLECTION

Pioneering pump innovation is our core value

Here at Triolo, innovation towards systems that are dependable, sustainable and efficient are the values we conduct sincerely. Our passion drives us to continue to contribute in innovative and sustainable ways.

In an effort to provide reliable and efficient pumping systems for the world, Triolo studies pump cases, innovates and designs reliable pumps for your needs and the world.

**We Study, Innovate,
and Create**

Our Group

Triolo specializes in the production of pumping stations and fluid control. With decades of experience in studying pumps, we are committed to producing highly efficient and reliable pumps for the world. We are committed to our 3 core values of quality, efficiency and durability.

What We Offer

Triolo is dedicated to providing end users and consumers with reliable pumping systems that are well designed to ensure they meet the needs for successful sustainable fluid control.

Triolo Pumps

Triolo offers a wide range of pumps with a wide range of applications from oil supply control, waste management, residential use, construction drainage and more. Triolo Pumps, designed for performance.

MARKET & PUMP SECTORS

Designed for **PERFORMANCE**

3 QUALITY
EFFICIENCY
DURABILITY
